

I.D. Tabs

Because our molds are modular we can insert identification tabs that call out a specific feature of your belt.

The tabs that you see here are ready for your use and can be combined with size tabs when we run your order.

But if there is a feature that you want to identify that is not among those illustrated, we can make a mold to your specification.

When you add a tab to your hanger you only add a cost of \$3.50 per 1,000.

You should also note that you can use a tab on only part of your order.

For example: if you are ordering 50,000 hangers and you want 20,000 of them to have a REVERSIBLE tab, there is no problem in combining this as part of your order.

In addition, we have enough room in our molds for you to actually use two tabs and a size (depending on the actual size of your logo). Call us for additional details.

Stock colors in Inventory: Black. Samples available on request.

All hanger drawings shown 1/2 actual size.
